### **DETAILED ACTION**

This is in response to amendment to application no. 09/852,717 filed on January 7, 2010.

Claims 1, 3-5, and 40 are presented for examination.

#### ***Information Disclosure Statement***

1. The information disclosure statement filed March 17, 2010 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because an information disclosure statement will be considered by the examiner if filed after the mailing of a Non-final Office Action, but prior to the date the prosecution of the application closes, provided the information disclosure statement is accompanied by either (1) a statement as specified in 37 CFR 1.97(e); or (2) the fee set forth in 37 CFR 1.17(p). In this case, neither a statement nor fee is accompanied with the information disclosure statement. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

***Allowable Subject Matter***

2. Claims 1, 3-5, and 40 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior arts of record do not disclose or suggest at least the limitation of "a substrate for a liquid crystal display wherein the transparent electrode is disposed below the black matrix and above the color filter" as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
5. a. Sakurai (US Patent 6,476,882)
6. b. Suzuki et al (US Patent 5,739,880)
7. c. Sonoda et al (US Patent 6,433,852)
